

Netcom Solutions Announces New IT Managed Services Plans That Extend Beyond Traditional IT Customer Solutions

Miami, FL, June 10, 2009 --(PR.com)-- Netcom Solutions, South Florida's premier provider of [managed technology services](#) for small to mid-sized businesses, today announced the company is launching 3 new managed service plans designed to eliminate network downtime and decrease IT maintenance costs. The new service plans (Netcom 360°, Netcom 240° and Netcom 120°) offer advanced features including virus protection, spyware management, Microsoft patch management, network preventative maintenance and more. Netcom 360° Managed Services Plans Deliver Advanced IT Solutions and Value through 360 Degree Network Monitoring and Proactive Network Maintenance.

With the introduction of the 3 levels of managed services plans, Netcom Solutions offerings will provide affordable, proactive IT management and support to growing businesses at a budget they are comfortable with. Netcom's unique framework for IT managed services will provide a range of proactive solutions to keep computer systems up and running and increase business productivity. Proactive managed services eliminates wait for the computer guy. Potential issues and problems are prevented. Systems and people remain productive and working. In the case where problems do occur, response times can often be within minutes.

“Managed Services has clearly become a viable and compelling option for small businesses who are plagued by downtime, viruses, spyware and loss of productivity when their computer networks go down,” said David Betancourt, President of Netcom Solutions. “By adding a cost effective managed service plan, these businesses can increase their uptime and increase productivity while keeping their IT costs down.”

In addition to Managed Services plans, Netcom Solutions also offers complete IT solutions, including Infrastructure Cabling, Data Center Design, Business Continuity and Disaster Planning and Network Virtualization.
